

ANTISTICK™

EasyClean™ Anti Ice

Nanocoating protective solutions

Ice Barrier For Easy Ice & Snow Removal

Our high-performance nanocoating is designed to protect and ensure longer service life and durability.

Key benefits:

- ❖ *Icephobic*
- ❖ *Easy clean*
- ❖ *All types of substrate*
- ❖ *Transparent gloss, matt or color*
- ❖ *Simple Application – spray, roll, or brush*
- ❖ *Maintenance free*

ANTISTICK™

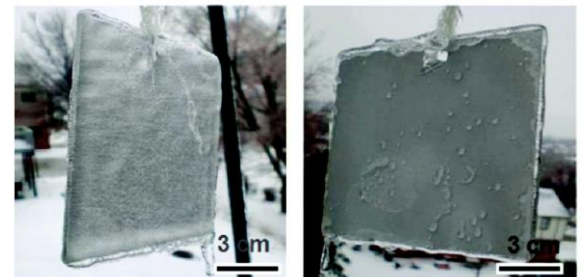

Nanocoating protective solutions

Our anti-icing coating provides a solution to the challenge of ice formation. Since water droplets can't touch coated surfaces, freezing droplets merely fall away or the formed ice can be easily cleaned from the surface by minimum force.

Application: Transportation, aviation, shipping, HVAC communications, and power generation and transmission.

UQAC ice accumulation shear force tests show that it is 6-10 times easier to remove ice from an anti-ice coated metal surface

FOR THE TOUGHEST ENVIRONMENTS

Best performance, longest life, easy-application, best cost
